Hall (1913) The Records of Passaic County are the record of the business transacted in that county and particularly in its municipalities. They therefore represent the heart and commercial activity of the county. The records are those of the Clerk of the County Court, the record and jail keeper, the assessors, the treasurer, the supervisors and all the other officers who are charged with the care of the business of the county. The records of the Clerk of the Court are interesting to the historian as being, from the nature of the material, a complete and continuous record of all of the business and transactions of the County. The Jail, Records, Assessments and other county offices were, until 1877, the property of the Clerk of the Court. The County Court as a judicial body met in the county jail. This was a general county jail where prisoners of the county as well as those of the City of Newark were confined. Presently the Records of the County include the record of the Clerk of the County Court; the record of jail keeper for the County, the record of Sheriff of the County, the record of the Treasurer and his deputies, the record of Assessor.
